

WHO DO YOU CALL WHEN YOU NEED ASSISTANCE?

Gloucester County Public Schools prides itself on providing all of our students a quality education. We are also mindful that we are here to serve our parents and community members. There are times throughout the school year when you may need to contact one of our staff members with a question, issue, or concern that needs to be addressed. **The following procedures are provided below to assist you in resolving or answering your questions/concerns:**

SCHOOL-LEVEL ISSUES

1. **Contact the person closest to the issue.**

Example: You have a question about something that occurred in your child's classroom; the first person to contact is the child's teacher.

2. If the incident in question is not resolved by following #1 above, then **discuss the issue with the immediate supervisor of that individual.** In most cases the next person with whom to discuss your concern is the person who supervises that individual; for instance, the assistant principal or department head.

3. If you still feel your concerns have not been addressed appropriately after #1 and #2 above, **contact the School Principal** if you have **only** spoken with the assistant principal. Most school issues can be resolved at the school level. Please give our school leaders an opportunity to address your concerns; they are eager to assist you.
